

**Instructors for COMS 1010, 1030, 1100, and 2020 place the following text in your syllabus:**

**Research Participation Requirement.** You will earn 2% of your course grade by either participating in a research study or completing the alternative assignment (journal article summary). To complete this requirement, you register on the Communication Studies Research Participation System (CSRPS) (<http://ohio-coms.sona-systems.com/>) during the first two weeks of the term and complete a prescreening questionnaire (worth 0.5%). At that time, you can choose to participate in a research study or to complete the alternative assignment (both are worth 1.5%). If you choose to participate in a research study, you will be assigned to a specific study. The researcher for that study will contact you about your participation. If you choose to complete the alternative assignment, the instructions for the assignment are available on the CSRPS. Additional information is available on the COMS website (<http://www.coms.ohiou.edu/research-participation>). Please note that this assignment is not extra credit, but is part of your course credit. You will need to complete a **separate** research study or alternative assignment for **each** Communication Studies class that requires a research experience. Questions about the research requirement should be directed to: [coms-research@ohio.edu](mailto:coms-research@ohio.edu)

**Instructors for other COMS courses offering extra credit for research participation, place the following text in your syllabus:**
